The SEM image in Fig. 2 of page 028201-2 (Chin. Phys. B, 2012, Vol. **21**, No. 2, article No. 028201) should be replaced with the following new one:

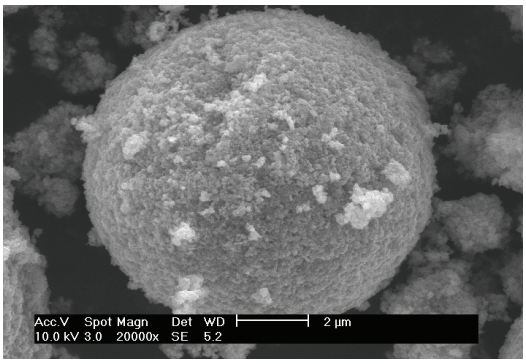

Fig. 2. An SEM image of the as-prepared $Li_4Ti_5O_{12}$.

Accordingly, in the first paragraph of the "Results and discussion" section of the same page, the statement "the particles are micrometer-sized porous spheres, each of which is composed of several hundred nanometer-sized primary particles" should be "the particles are micrometer-sized porous spheres, each of which is composed of several tens of nanometer-sized primary particles".
